

Why should you purchase GAP?

Each day thousands of vehicles are reported stolen or declared a total loss by insurance companies. Imagine the vehicle you have been driving and making payments on becomes one of these vehicles. And, what if the lease or loan balance is higher than the market value of your vehicle? Instead of looking for a new vehicle, you might be looking for a way to pay off your old loan.

Triton Protect Guaranteed Asset Protection (GAP) is designed specifically to avoid that type of situation. GAP waives some or all of the remaining balance between the actual cash value of your vehicle, as determined by your primary auto insurer, and the balance due at the date of loss on your loan upon a covered total loss.¹ In addition, GAP is only available for purchase at the time of vehicle sale.

Protection

Triton Protect GAP provides added security in unforeseen circumstances by covering the difference between the balance you owe on your loan and what the insurance will pay if you experience a covered total loss.

Peace Of Mind

Drive with peace of mind knowing that your investment is protected with Triton Protect GAP.

Predictability

Know that the financial burden that comes with the loss of your vehicle could be mitigated with the purchase of Triton Protect GAP.
